**Justin**      October 17<sup>th</sup>, 2023

Because of COVID-19, people have to stay at home most of the time and Venice becomes a tourist-free city. These months, something marvelous has happened. Look at the two beautiful swans in the picture. After dozens of years, swans have come back to the canals, which are quieter and cleaner now.

Although COVID-19 has made our life not as convenient as before, there is always a bright side. Cheer up, guys.

**Lisa** Thanks for sharing. I love it. I've been working from home since September 25<sup>th</sup>. Life is boring and tiring. I need a break.

**Ben** It is a beautiful sight of the canal with swans swimming. What a lovely picture! I love this city so much. I'll go visit it again when COVID-19 goes away.

**Ricky** The picture was taken from the canal of Venice? I have lived in the city for twenty years, but I have never seen houses like these. I don't think the picture was taken in Venice.

**May** You're right, Ricky. The news I read this morning said this picture was, in fact, taken from a canal of Burano, an island near Venice. People living there say this is the common sight in Burano.

背面尚有試題

(38-40)

As you read this, look around. Are you still in bed? Are there clothes, socks, food boxes, and trash on your bedroom floor? Have you, during the past year, felt “too much” by everything that you decided to just stop trying? Do you not even care about things around you or even about yourself? If so, you might be in “goblin mode”- the words is chosen by the public as the 2022 Oxford Dictionary Word of the Year.

WHAT DOES IT MEAN?

According to The Oxford University Press(OUP), “goblin mode”, a type of lifestyle which is lazy, careless, messy, or greedy, is a way that doesn’t meet social expectations. While social media always show others’ “perfect” side of life, “goblin mode” shows the parts of life that aren’t perfect. These habits have become popular with many people during Covid and working from home. Someone might be in “goblin mode” in life, but not at work.

For many of us, this is the first time to hear “goblin mode.” In fact, goblins first appeared in fantasy stories. They are used as names for evil spirits which are usually small and ugly, with long pointy ears and green bodies. Goblins are not the main bad characters in stories, so they won’t lead the story. That’s why “goblin mode” doesn’t really mean you do something evil. Instead, you are just lazy and don’t want to do things actively.

IS IT WRONG?

Since Covid almost passed, people want to stay comfortable and don’t want to spend energy acting perfectly on social media. A new social media BeReal has become popular where users can post whatever they are doing without making it nice. Goodbye, fake social life. Hello, goblin mode.

(A)

(B)

(C)

(D)

40. Here are some things about Jessica’s friends. Who may NOT be in “goblin mode”?

- (A) When Jeffery is at work, he doesn’t do anything more than his boss asks. He always goes to work at 8 and goes home at 5. He doesn’t want to be a leader on the team.
- (B) Debra uploaded a photo, which is shot just now without editing, on her Instagram. She felt perfectly happy to share this photo with her friends.
- (C) Today, Sherry wore a cap to work and didn’t dress up nicely. In fact, she was too tired to wash her hair for more than three days and her hair is dirty.
- (D) After Kanye finished cooking pasta, he didn’t put it on the plate because he didn’t want to wash another plate later. So he took the pan to the dining table and ate pasta with it.
